[Test Plan] Login and Checkout

Document Status	[DRAFT]
Test Plan Creator	Amir Saqib Azhardika
Test Plan Reviewer	 Reviewer_1 Reviewer_2 Reviewer_3

1. Introduction

a. Overview Feature to be tested

Login feature, or login page, is where users enter their username and password to access a system by their account. This feature is essential to protect the system and user data.

Checkout feature is where users finish their purchase. Its a process where users can review their item, get the billing details, select payment, and other important variables to support their long distance purchasing. It's usually designed to be quick and easy, so users can get their purchases without any difficulty.

b. Goals and Objective

To ensure all the positive and negative scenarios are developed correctly as expected for the login and checkout feature. To make sure all bugs and issues are reported and to support the fixing process.

2.Test Item

List of test items (feature / product)

No	Feature	Test Item
1	Login	 Login with valid username and valid password Login with invalid username and invalid password Login with valid username with different text-cases

		 Login with empty username Login with empty password Login with locked account user
2	Checkout	 User checkout single item User checkout multiple item User checkout with missing required information

3. In Scope Testing

List of in feature to be tested

No	Feature	Requirement / Design specifications
1	Login	Swag Labs
		standard_user Login Accepted usernames are: Password for all users:
		standard_user secret_sauce locked_out_user problem_user pefformance_glitch_user error_user visusl_user
2	Checkout	Swag Labs Your Cart QTY Description 1 Sauce Labs Backpack carryalThe Things() with the sleek, streamlined Sly Pack that melds uncompromising style with unequaled laptop and tablet protection. \$29.99 Remove Checkout

4. Out of Scope Testing

List the features of the software / product which will not be tested.

No	Feature	Reasons
1	Register	This testing phase will be focus to test login feature
2	Address Validation	This testing phase will be focus to test the checkout flow
3	Payment Check	This testing phase will be focus to test the checkout flow

5. Testing Approach

The project is using an agile approach, with weekly iterations. This testing will begin with exploratory testing. Tests for planned functionality will be performed by assigned QA.

6. Test Environment

- Website: https://www.saucedemo.com/
- Web Browser: Chrome Version 127.0.6533.89 (Official Build) (64-bit)

7. Test Deliverables

- a. Test Plan (this document itself): [link]
- b. Test Case: [link]
- c. Bug Report: [link]

8. Testing Timeline

No	Task	Estimation Time		Actual Time
